

# Prakash Paudel

## Frontend Developer(React)

+91 6383879770    LinkedIn    Github  
p.prakashpaudel35@gmail.com    Chennai

### PROFESSIONAL SUMMARY:

Dynamic frontend developer with expertise in React.js, JavaScript, and responsive design. Adept at crafting scalable, high-performance web applications and integrating with RESTful APIs. Quick learner with proficiency in Generative AI and ability to adapt swiftly to evolving technology. Committed to enhancing user experience and maintaining cross-browser compatibility.

### EDUCATION:

<b>Full Stack Web Development</b> <b>Masai, Bengaluru</b> Bengaluru, Karnataka	April 2024-present
<b>Bachelor of Technology (Information Technology)</b> <b>Panimalar Engineering College (Chennai)</b> Chennai	March 2020 - March 2024

### TECHNICAL SKILLS:

HTML5 | CSS3 | JavaScript | React | Context API | RESTful APIs | MongoDB | Git |  
Responsive Web Design | Git Hub | Tailwind css

### PROJECTS:

#### UI-Library    🌐    📁

- Developed a searchable and filterable gallery of reusable UI components using HTML, CSS, and Tailwind to streamline web page development.
- Implemented responsive design techniques to ensure seamless performance across devices and screen sizes, supporting optimal user experiences.
- Enhanced accessibility by integrating light and dark modes, allowing users to toggle between themes.
- Authored comprehensive documentation offering guides and best practices for customization of components.

#### Tech Stack:

JavaScript | Git | HTML5 | CSS3 | Responsive Web Design

#### Programming Language and IDE    🌐    📁

- Collaborated with the team to design and develop an intuitive user interface for the custom IDE using React.js, ensuring seamless user interaction.
- Implemented responsive design principles using Tailwind CSS and CSS3 to ensure the IDE is usable across various devices and browsers.
- Integrated frontend components with the custom-built interpreter/compiler, facilitating smooth code execution and error reporting.
- Conducted thorough testing and debugging to ensure the IDE's stability and reliability, incorporating user feedback for continuous improvement.
- Utilized Git for version control and collaborated using best practices to maintain code quality and streamline development workflow.

#### Tech Stack:

JavaScript | Git | HTML5 | CSS3 | Responsive Web Design | Tailwind CSS
